We, the Oakland Avenue Charter School request waiver for missing the filing date for FY 2018 and request funding to the available amount permitted. Additionally, we were advised by USAC that a new Form 470 is required even though this is a continuation of existing funding. We ask waiver of the 28 day waiting period normally used for new applications.

The reason for this waiver is because our previous administrator left the Oakland Avenue Charter School before completing the FY 2018 filing period. Application was started, but never completed. We were unaware that this was not fully executed.

As a small charter school with limited resources we depend a on funding assistance to provide adequate primary education to our community. Without such would hinder our ability to fulfill our mission.

We greatly appreciate your consideration.
